In the Ethik section of the supermarket, I haven't had a chance to check their Mars.com site yet. Also I have a "CATCH-23" like Catch-22 is that the system can do whatever it wants to do that it can get away with, Catch-23 is that the system's (world-)takeover is invalidated by how much of this takeover has been done off of its parasiting on me. I keep "invisibly arguing," explaining that its Autism is a real medical problem and real therapy would be the exercise-act of releasing me from this "Armageddon program." would be a 1st therapy-act out of the Autism,
