

It's really dangerous to read this stuff; if the system would let anyone assist me with getting out of this Catholic Charities hole, these shelters, I could stick to the Prehistory and historical materials and write to try to get medical-people's attention to this planet-destroying eventually Autism. But I'm stuck here and don't know who to try to get assistance/help from next, which is all I'm ever only able to try to do. I'm left with only the lawyer of the guy whose car had hit me, that they ought to simply give me some settlement instead of making me go through all this waiting, where I guess all the bombs are just waiting for something worse than the car-hit to happen to me, and the concept of trying to get assistance/witness protection or protective custody from the new "drug czar," who also happens to have the profile for the Autism expert for the "high-functioning" type of it, + I really don't think he'd have the slightest interest in "giving up the whole game" so to speak, that eluding and framing the normal people has been since way back in the Venus' days.

The Old Soldiers Home in D.C. is a good example of that. The people who made the arrangements were of the generational-slave #2 type, Appomattox (S.C. = v)

(p. 17) The MCCIT case manager has been playing tricks on me with these offspring of the Fraud-parent and in one of them there was also an offspring of Bishop Shahan involved, as a driver named Farook. I don't know much about Bishop Shahan's type but the Fraud-parents and his type seem to love the unprovable curse-system and I'm sure that the one that day had cursed my lock with the housing voucher. I shouldn't have let the case manager make my transportation arrangement but she called just as I was about to dial her number that I was going to the housing-voucher event, and I'd always told her how horrified I am by these "real" offspring of the Fraud-parent, that they never speak but behave oddly and seem scary to and for me - besides getting my apartment-hunting cursed I'd likely gotten cursed that I'm an anti-social type.

This is how the prophesied Armageddon is being made to come true, but it's very tedious to try to explain all the details to strangers, to have to start from scratch, so I'm trying to get things like this onto the website so I could just refer people to look up the different subjects there.

p-21 - NASA founded for getting the "developmentally disabled" into

Space for claiming its riches + winning Earth from here/thereon probably, the group's largely coming from Berlin with slave-Women von Braun's doing most of the work. That rocket fuel, as gasoline + the other petroleum-foo products, comes mostly from melted people. Please let me keep trying to get us out of this.

I think that forming this (our) solar system to get it "Goldilocks" just right for biology to get started was similar to plate-~~spinning~~ in that when one plate goes awry the rest start to topple then fall

Instead of social work assistance I was just locked in and the psych. demanded that I agree to work with V.A. people, who turned out to be the "RCCR" group RCCR arranged for me to spend 2 months with this Veterans on the Rise group's housing in the DeaneWood section of DC, to be followed by 6 months at Safe Haven, which I'd thought would be in Silver Spring (not Kensington) during which time I had to apply for this housing-voucher and then find a place to rent that HUD <sup>and</sup> DC would pay for, as well as the V.A. was now <sup>also</sup> on this housing-arrangement, which I'd told DCHA last year that I have too many LURE problems to be able to rent just anywhere on my own, am always looking for a responsibly-behaving adult to assist me with this TOTAL PLANET EXTINCTION-bringing Armageddon-making LURE situation I'm alone in.

(4) One of the bosses at the Veterans on the Rise group turned out to look like to be an offspring-descendant of the F-son #2, as had all along been one of the main staff at the 425 2<sup>nd</sup> St NW Federal-City Shelter.

These people are nearly impossible to recognize because their skin color is some dark shade or another usually, like the guy on p. 10. You could guess that that's from the ejaculation's being used to fertilize black females' ova, and no one will listen to me that the whole skin-color business comes from "experiments" with petroleum "goo" and coal-tar dye by centuries-ago German slaves' being "scientists." Then the developmentally disabled people overran and packed Africa full of dyed-dark people, and the coloration is probably refreshed standardly, like a brand on some people and a disguise for Artist-types.

I can never fit in enough details: the "French Connection" was an acted "magic" ~~photography~~ ritual photo to camouflage that LSD comes from brain "juice," brain's liquid chemicals, was hiding that behind the conspicuous white powder. The white powder of the heroin and then cocaine was actually from nuclearizing people's bodies (or "only" bones) in those cyclotrons that were invented while being slave-forced to get the system-people into space.

I could explain everything to this girl framed in that 2003-04 Abu Ghraib prison scandal and she could help translate but can't reach her (an ent) idea-of-referencing... Maybe "Virginia" is a sister-version of some guy I'd had an embarrassing incident with, like with the Bishop, Shahamz-type's partner, like is a curse onto me for that mistake. Everything in my life has been entrapment. The LURE-abuse probably started in 1964 on the excuse of underground-watching that there were no more kidnap-attempts and it led to the rise of a fast-food hamburger chain outlet there. And by doing this "Virginia" referencing the system makes believe that I'm somehow aware and accepting of its activities, spreading the blame to me.

Aug-1961 photo of JFK where some  
peculiar in-laws of Mrs. Kennedy's  
sister Lee (Lady) will appear to be  
setting a curse onto JFK, he  
and the lady being made godparents  
to Lee's daughter.

I'd like you to consider that I was possibly raised by the  
person who'd assassinated JFK, while a little person, a normal,  
like me can't even be sure that JFK wasn't in on that his  
own self, a hoax for de-splitting the populace as much as  
possible. I wrote to (the fraud-parent) to ask where he was  
(12/22/15, Tues-11/11 have to explain more about this CRRC-VA horror-business)

Now I've come across this old August 1961 photo of JFK where some  
peculiar in-laws of Mrs. Kennedy's sister (Lee R.) appear to be  
setting a curse onto JFK, he and that lady being made godparents  
to Lee's daughter.

I've also recalled a girl from around 1968 who'd looked like  
MCH's L L who'd set me up for falling into a swamp  
while being watched by one of these guys that look like CRRC's <sup>founder</sup> boss.

(I really should get assistance getting to a shelter through MCH's  
Crisis Center, as MCH's just told me I was formally discharged from

It's possible Mr. Bouvier, d. 1957, mentioned the ergot case to his son-in-law Sen. Kennedy and as a generational-slave for the Autists had set up the assassination-excuse, or really wanted to try to get the world out of this. "Everybody" was enjoying all the free-samples LSD.

"Petroleum-Closet" Patroclos on the other side of here was the decapitating ~~from~~ the "LSD" ancestor of Anthony of Burgundy. I guess he was also Charlie Chaplin's ancestral line. One book says Charlie Chaplin had lived in Kew Gardens, Queens, and that's near Kitty Genovese's apartment because that is a small area, 8 by 9 blocks at most, so I've been stuck, with no Internet or other library I can use, trying to research for Johnny Stompanado-Stanley Armour Dunham, then Charlie Chaplin and now Mr. Bouvier but also Ms. Genovese was involved with Greenwich Village so the whole music industry is another aspect of how this "Armageddon off of Kathy Foshay at the bottom" is being pulled off, and it's looking like maybe Mr. Chaplin was the most Autism-Insane of them all and was somehow all connected with this Greenwich Village-to-Provincetown, Massachusetts acting group that seems at the bottom of the Greenwich Village underground, on MacDougal Street, MacDougal. Everybody was always going to big parties on Long Island, so I guess there was a lot of traffic through Queens but it seems hush-hush.

I would like to find out where Mr. Chaplin had lived there.

There was a big "Famous Players"-Lesky film studio in Astoria, Queens, Astoria being named after Mr. Astor and he'd been the "dwarfed-Neanderthal" like Mickey Cohen's type.

So I'd spent 9 days at GLEOH and they wanted me to go somewhere I could wear, have an oxygen portable tank with me, sort of like the set up now I guess. When I got back to the Open Door part of the 425 2<sup>nd</sup> St, NW, shelter the shower facilities started changing, they'd pulled out the little hand-held one near my area, where I'd found those useful for cleaning out my breathing passages as opposed to how shower-water usually just comes down on your head. I can only recall little difficulties offhand right now, but when the John L. Young section was ready for us to move back into the only difference was the "re-modelled" bathroom and there wasn't hot water again till maybe a few days before I was too sick to walk anymore, no hot shower water from August through March, and I'd just sort of gotten a little unhealthier each day, but feeling like this "work," I do is like a public service I was exchanging for the bed and board BOT the real thing is that I was being used for this same real Armageddon-making and LURE.

Now I recall that the last time I'd worked was at the NIH, a 1-day temporary job in their cafeteria/dish washing. I can't recall the temp. company's name so I've never listed it on a job application or welfare form. When I got off the bus afterward I found I'd lost my DMV-identification card, and everything became a lousy whirl, going down the drain. I'd been sent out from the temp. company, maybe "Ready to Work," with a girl named Jenkins, and I'd talked with a man named Jenkins the morning before I was hit by this car, 11/19/15, and then saw that Bishop Shahan-type (who might have some connection to the St. Foy/Ste-Foy goings-on.) I've got Mr. Jenkins' business card. He was all by himself at the Homeless Resource Day at Bohrer Park a little north of here somewhere, the shelter had driven us to and from this annual event. I went mostly because I wanted help reading the response from the credit-analysis company TransUnion.
