Re: 3rd letter; Finding
anti-Armageddon assistance for me.

Dear Dr. Delaney,

This letter became too big for me to be able to photocopy, and now it's a super-emergency that someone help me cash fraud-parent Mr. Foshay's December gift postal money order to me for \$100.00 as most of my identification paperwork and cards were thrown away while I was in GWU 4/24-5/3/14 and all this sneaked-Armageddon off of me has worked to foul the replacements for getting any checks cashed, that I'm looking for some emergency-assistance with that, which could rescue the whole universe and human race from the Biblical Revelation book's predictable outcome.

Another form of Armageddon-creating horror is that I have no responsible adult to discuss anything with and these scary envelopes keep arriving and nobody knows anything about me all alone here with all different kinds of horrors. Right now I've got 2 girls each coughing on either side of me, a

copy-off spring of Mr. Foshay sitting by the bathroom door and no running water for the toilets, sinks or showers with no notice, and my Medicaid had been cut off by a trick with the mail, that I merely can't prove I'd mailed-in the renewal form on time last year and since I got out from the 9 days in GWOH during which I'd met you the health insurance company simply doesn't write to me by mail, won't send new insurance paperwork. Every day all I do is look for a responsible adult to help me with any of all of this.

I don't have any responsible adult because I was sabotage-put into a family with this underground-person, Mr. F. I don't know anything about him, I'd left his Bronx apartment in 1973. I could never guess-describe what these system-people have been doing behind my back all my life for the purpose of acquiring pornography of me out here. But also nobody has any responsible adult, the mayor here also having been in the surrounded-trap of John Carroll's line of people.

Dear Dr. Delaney,

I hope you received the letter of early October through the regular post. I can't imagine why nobody on Earth can be bothered contacting me. It's been one thing after another, the latest being that this homeless shelter is run by an East European group, working out of Colorado.

Longtime-mayor and now council member Marlon Barry appears to be the same sort of generational-slave as Obadiah B. Brown who'd co-founded George Washington University as Columbia College, Luther Rice, and Archbishop John Carroll, and it looks like descendants of these inmates from the Bicêtre asylum in Paris, were or are also still with him, sig in this underneath. Dr. Pinel was about contemporary with Carroll.

Mental illness 409

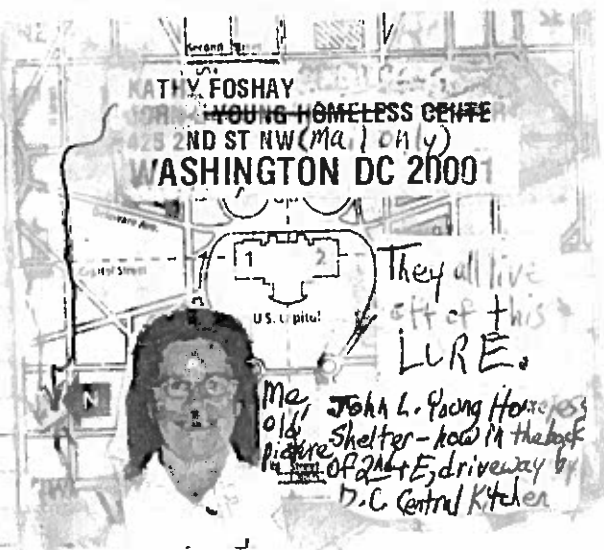

Humane treatment of people with mental illness gained importance in the late 1700's. This painting shows Philippe Pinel, a French physician of that period, pointing and demanding the removal of chains from inmates of a hospital for people with mental illness in Paris. Through Pinel's efforts, many hospitals introduced more humane treatment programs that included fresh air, exercise, and pleasant surroundings.

Dear Dr. Delaney,

I hope you received my letter of early this month, through the regular post. Instead of "averting the end of Earth," I'm so desperate I'll have to describe that I'm totally alone trying to "save the world" while the Armageddon trick is they've been saying that behind my back for decades to trick normal people to various holocaust-traps, a sneaked "revolution."

It's like this group on the right & left France and came here. I just realized that longtime D.C. mayor/councilmember Marlon Barry is a generational-slave of the type like Dr. Pinel on the left in this painting that hangs in the old men's asylum in Paris, the Bicetre, which is the same as here's John Carroll, 1735-1813, Luther Rice and Obadiah B. Brown of George Washington University's founding, comedian

Bob Hope
 and too many others to name...

Dear Dr. Delaney,

I haven't been able to get this letter to you started yet, please let me try to get it to you next week.

Basically I'm trying to get the assistance of ANYONE out by you, a student or a medical personnel that would be interested in what I'm trying to explain about the Autism-psychopathy, that afflicted people planned the underground and food-system for the purpose of clearing the Earth of other males, males not from their Paleo-American long-separated group, political group.

Various hint-clues pointed to that that old "French Connection" the 1971 film was about might be connected to our present situation and when I found the book I saw it has a picture in it of my false-next-of-Kin, or wrongful-next of Kin, the figure marked #6 on the next page.

This shows that Mr. Foshay had always led a secret life as a mobster, the small family just a cover-front for his real activities, and it's why everything has been horrible in my life AND it's how the secret-system has been getting that Biblical Armageddon-threat pulled off. Like I'm invisibly connected to the 3 suitcases in the picture, the same with the whole planet-Armageddon.

DOJ won't ever speak with me and I find that there isn't anything that isn't DOJ-connected.

Homeland Security's 1st chief (Tom Ridge) looked like he's a son of J. Edgar Hoover the same way there are thousands of Mr. Foshay's all over.

That made me recall this Artist, Stanley Finch, who'd set up the early FBI, and he

looks to be descended from Theodosius II, as in this old, original, law-code book picture in a 1985 book, "The Evolution of Law," by Alan Watson. ← This modern author is another example, and probably so is the actor Tom Hanks, of Forrest Gump.

In 2008 he told me this → isn't him, but now that I've found the other picture I'm pretty sure it is. The caption lies that this is the Federal Witness Protection program chief, in the 2002 book, "WITSEC" by Gerald Shur and Pete Earley.

The Witness Protection program is that the gov't. can get away with running this LURE off of stranded me because Mr. F [redacted] will, would, sign me away into a "nuthouse." This guy is no biological or legitimate family to me, someone gave baby-me to a monster-type of person. I had tricks played on my mind virtually every day of my life, as with this "French Connection" big problem, and left his Bronx apt. in 1973.

Gerald Shur, now retired, sitting on the patio rail facing his backyard. (Photograph by Dudley Reed)

In the film Tony Fuca was morphed into this character. (His brother and father were also involved.)

Marcel Bozzuffi, Fernando Rey

(picture from 1973 Screen World by John Willis.)

And Fernando Rey both represented morphed-Mr. F [redacted] character and replaced the real-life French main trafficker. But I ran into a 1954 Theatre World picture of a drama critic, Vernon Rice, and I think the French real trafficker, Jean Jehan, was actually that drama critic, faked his death and went to France and set this ritual up.

Record haul of 88 pounds of pure heroin is displayed by some of the arresting officers after seizure in Tony Fuca's basement (February 25, 1962). Tony, left, is held by Vinnie Hawkes; man in suit, center, is Deputy Chief Inspector of N.Y. Narcotics Bureau Edward Carey; on his left, Sgt. Jack Fleming of Special Investigating Unit; Agent Frank Waters of the Federal Bureau of Narcotics, and N.Y. narcotics agent Ben Fitzgerald.

1171 Bryant Avenue, Bronx, NY, near Home Street.

Mr. Fuca has high-functioning Autism-psychopathy.

Mr. F [redacted] has this whole secret life I never guessed about.

He was never my real parent, but a sabotage.

He probably doesn't know or care about the Biblical prophecies.

For 9 1/2 years I've been writing to him about all of this invisible-torture LURE and the evidence I've collected that it has us headed to TOTAL PLANETARY EXTINCTION.

2nd letter to Katalin E. Roth, MBJD, Curatives + Palliative Medicine, 2150 PA Ave. UIC
May 13, 2014, Dear Dr. Roth, (3rd handcopied pg.)

Ethics, referencing your Ethics Committee, is involved in everything about my situation, if anything could be done about everything in such a secret system. The system is secret for no other reason than if everything about it is unethical, is heinously wrong - It would take a separate letter to address that.

Medicaid is in the process but not activated and CVS can't fill the 2 prescriptions (Advair and Spiriva) and the worker suggests trying CVS Pharmacy.

The Univ. has been punishingly health on any excuse, and not using the medicine as prescribed is an excuse for artificially giving me this "shortness of breath" problem. It's all done so subtly that it's hard to catch them at it and my notes are gone but I have a lot of experience with the tricks. I feel that getting the Univ. to admit to its own existence is the only way my difficulties can be straightened out. Toward that end I'm trying to get a letter together for Sen. Party Ke of the Dept. of Commerce as I've been trying to reach my family in Chicago because three Hyatt hotels are on each end of my homeless shelter-to-library daily walk since 2005, and now I've been hearing all this about pet welfare and plastics, a subject for the Dept. of Commerce. Enclosed please find 4 pages of extra background on my world's worst situation, then this cont'd on p. 6. Thank you,

page 6 = Brave New World, Revised p. 12 enlarged, (continued from p. 1) K. Roth/Fishy

Mr. Foshay is like the only mail-contact I've been allowed + the only source of cash-money since 2007, at \$300 to \$400 a year in sm. gifts and holiday presents, but it's like an unbelievable situation, where he's sort of like the govt DOJ's assurance that we won't get caught at using me for tobacco. WHE is actually taking us to, probably full TOTAL PLANETARY EXTINCTION, where neither can't do anything about the psychopathic disorder and the doctors don't believe it is not an alternative lifestyle!

We been lucky for anyone to assist me in this double-junkben's year and now the system is predictably "disappearing" me via these artificially-made phony health problems and I'm totally alone and it takes a long time to get identification cards replaced like I'm trying to do as soon as I try cash on getting the 2 prescriptions filled, being referred to 3 different folks all the time while the subterfuge pulls on me.

Dear Georgetown

hand-copy letter to Dr. Roth, 5/11/14

These are a lot of different subjects but I think there is also a character in Mrs. Welch's book, (under her then-name of Wetlaufer,) that may be allegorical for my "Neanderthal-Foshay" big problem. The library discontinued keeping the 1992 novel, it was on its way out when I found and quick-read as much as I could only and no longer have the notes I'd taken. There's a homicide sergeant at the beginning and only in 1 other scene I'd seen, where the protagonist lyingly denies knowledge of the murder of her next-door neighbors. That was a shocking lie but in retrospect I recall that Manuel always shot his victims in the same place, the neck, yet the Sgt. didn't say that there were a lot of that type of murder, a serial-killer around, so maybe "Sherry" suspected him of somehow covering up for the boy. My finding is that the Autism-people had met and partnered with at least 1 type of Neanderthal people. The homicide Sgt. sounds like a "Neanderthal-Foshay" type. I think they however were "dwarfed" and raised to work with Suzy's ancestors' type. I'm not sure if Jack or Suzy's ancestor was the "Dr. Frankenstein," or for that matter even the "Christ" original, type. But Suzy's type seemed forced to work with the Autists' partner-Neanderthals and to have "created" a small-sized type they would work with as representing the Neanderthals in the base-home, under Siberia-Mongolia.

Three types of "Neanderthal-Foshays" come up in this, but the type like the homicide Sgt. has next-of-kin power over me, and hasn't ever liked me, and is very connected to this.

What a strange note, and to claim that I'm leaving against medical advice, at all this time of therapy here. There isn't anything else I can do, the papers being my 1st step toward doing anything. It's hard to figure, just now recalling that the Safeway on 17th St - /p my 1st visit they get upset, if I'm in the area for awhile and go bk there, this "mustafa Mond" or whatever my "Jew" situation is being called, etc, as Katalin Roth is in the area again. They've got all these dogs in mind. I haven't signed the AM Advice form yet so I'd guess my clothes aren't on their way here. They seem to know and time everything in advance, that it's likely to be timed for no leisurely walk to the library and Safeway but such as that I'd have to immediately go straight to the shelter, and thence into the next scene for the underground. There was a nurse last evening that like me - Conti and took the chair out of here, like maybe the plan was H skull be on + see this paper + I'd have to describe the tank + the Medical paperwork problem. I can't believe all those papers are there. Then she'd get the life death whether I could stay anyway or not decision H H chair might have been about. It is so bad that I don't want to @ down that if need be I don't have to get to the shelter to 7-7:30 P, as, he'll be back to a nurse abt getting the paper signed + whatever else. Why doesn't anybody think the global system has got or maybe has got Antism or any other problem

Dear George Washington University Hospital,

4/29/14

I'm trying to get out of here and you are so much like this Autism psychopathy problem that it seems my writing subject matter is why you are holding me with this bizarre story about potting an oxygen tank onto me.

What could I do to reach someone here that I'm the only one trying to get everyone out of this "Brave New World" dead end? My work has always been treated like a joke and so I don't think anyone here's been considering it.

I was all alone out there with no one ever speaking to me about anything, no health concerns, no place else I could go, and now it's the diametric opposite. I'm actually the most invisibly-tortured person that ever lived, but without my notes and all it'd be impossible to prove.

What you probably think "Autism" is I call Past-Lives Captivity Trauma, where we've been affected by all the sadism and the scaredness is born with us and seem "slow" because of it, as these people with the unrecognized "Paleo-American Autism psychopathy," with dependence on "extra" hallucinogens, from other people's brains, have been locking other people up as much as possible all along. Since I'm at GW I've been writing on these 1-pages that their co-founder was generational-slave Obadiah Brocken, probable son of Georgetown's founder John Carroll, d. 1815. Their slave-strings went back to Europe and then to the Siberian base-camp of the Autism as this world-takeover was perpetrated. That puts you here maybe in the middle-part of the slavery-system. I don't know why there isn't any objection to being in the slave-system. I'm the only one working on trying to explain the Autism psychopathy to backtrack and try to disentangle this ~~flame~~ to prevent the total extinction that we're headed for under this secret system; please discharge me. Kathleen Foshay (8113155)

5/3/14

Dear George Washington University Hospital,

I'm trying to get discharged today, involuntarily here since 4/24. I feel like a fish that was caught that the medical-system pictures as being insurance-income from now till I die so doesn't want to let me go back to "civilian" life. While here I'd like to take the opportunity to try to disseminate that the global-system has got what I call "Paleo-American Autism psychopathy" with dependence on "extra" hallucinogens from other people's brains, developed from an accident-set in Prehistory that left unexposed or secret is taking us to extinction, probably TOTAL PLANETARY EXTINCTION. I researched about this because they've run a huge LORE off of me and I'm trying to get the government to cease helping to system to do this. I left my copies of the hundreds of evidence-filled letters I've been distributing here since 2005 sitting unsecured at the homeless shelter at 425 2nd St., N.W., and am anxious as can be to see that all this paperwork is actually still there, considering how controversial the subject matter. I'd been on my way to check on one person possibly interested in helping me with this when coming here befell me, where I really was greatly overtaxed but not to be staying here this long, and nobody else is interested in this; I have no idea what you other people think is going on or what the world is like. The term "Autism" is like a jinx because everyone thinks they know that that is about "slow" children and they lose interest, but "auto"=self and autism is self-ism, self-focus, self-absorption, feeling in a shell alone. I think the main symptom is repetition-fixation but all or nearly all of the medical and psych-social problems came with the Paleo-Americans when they mass-migrated to the Old World (the "Trojan war,") after millennia lost alone in the New World, where so much damage was done that they just want the world cleared of others so they can "start over" but this isn't possible and only open discussion of the Autism peer pressure, is useful treatment.

5/3/14

Dear George Washington University Hospital,

I'm begging to be discharged since 4/15, surprise-whisked to here on 4/24 from the 425 2nd St., NW, homeless shelter where my life's work on paper was all left sitting out that it'd be a miracle if it wasn't thrown away, as I've been assured it wasn't somehow but I'd have to see it for myself on a combination of problems to do with the writing and with my oxygen levels being low. I feel the oxygen isn't an emergency but my papers are, and hardly know how to describe that EVERYTHING is actually a disaster in our society and around the world. That's how my health got run down, that I'm alone with all this. I have no idea what kind of a society the rest of you think this is. It was set up for people with what I call "Paleo-American Autism psychopathy" from a problem-set in Prehistory, most of the work for this system done by generational slaves, but the term "Autism" is so mis-used for "slow"-seeming children that no one listens once I say the system has it, its leaders do, and I haven't made any progress toward getting responsible adult attention to this and the system is really taking us to extinction, probably TOTAL PLANETARY EXTINCTION. There is NOTHING positive about this system in reality. I'm in Washington, I think, to try to get the government to cease participating or helping the system with a LURE sneak-run off of me, but I've probably really been here because it's where the system wanted the LURE, which actually is how those threats at the back of the Bible have been being fulfilled. That is really difficult to prove but I've been gathering library-book evidence on this legitimately since 2005 and only want to go check on those papers today now. Kathleen Foshay
8/13/55

Dear George Washington University Hospital,

4/29/14

I was surprise taken here involuntarily on 4/24 and I'm trying to get discharged immediately for securing my belongings better back at the homeless shelter on 2nd Street, N.W., and trying to figure how to best express to you that GWU/Colombian College founder Obadiah Brown was a generational-slave to this global-system that everywhere is in now. I'm the only one working on that this system comes from a longlost then hostage-taking people with what I call "Paleo-American Autism psychopathy" with dependence on "extra" hallucinogens. I've learned this from a hoax played on me back in 1978, where a Ronald McDonald-looking guy did a Rockefeller-connected script of telling me he might try to "save the world" but it turns out that to people with the Autism psychopathy "save" only means to save their lives by feeding them, and they figure they are the world or whirled. Really in Prehistory they'd forced their way over Beringia and accidentally extincted the dinosaurs by egg-smashing and mega-fauna by cliff-running, alone in the New World which wasn't ready for people yet, evolving hallucinogenic plants mostly extincted too but the enjoyment of them stuck in the brain. Going to the Old World they wound up doing the same to the people and the slaves that I mostly have learned about are depicted in the "Ghent Altarpiece" Carroll's type in the lower-right inside corner, in the floppy hat with the Scallop shell Pilgrimage insignia that became the Shell Oil logo, and he descended to become General Electric's longtime Jack Welch of Plastics, while the large figure in the red cloak looks like a possible-ancestor of his wife, and she'd written an allegorical novel in 1992, "Judgment Call," that could be a big help in getting all of this straightened out before we wind up extincted by this ill path the slaves had had to do all the work toward, to where you're holding me sadistically now for example. 4 PM The nurse seems to be getting me out of here today plus I called the shelter and Rev. J. [redacted] said that of course there's a place for me tonight, she'd told me everything would be the same, or words to that effect that I really can't believe my papers are there, that virtually every day for the 9 years or so they'd accumulated, ~~per the CCU stay~~ I had "Mustafa Mord" over my head that they were going the way that all this has seemed to be, separating me from them by a hospital/atrium/CPAK for over 3 days and trashing them summarily, especially when they got weighty evidence, that they wouldn't be allowed to exist. Sitting down seems to lower the oxygen-intake. I suspect lack of nitrofen in the air is more the problem but there's no telling. It's like an unlikely dash at 4:30 now. Wonder if I got there per 7:30 PM. I don't think there's much I can do to prepare for leaving here. I stopped, ceased, 1/2 way through a letter.

I really can't run to go v on that chaplain then anyway, that it'd be best to go there before 8 AM when he's likely to be at the front desk. 2 weeks that will be, in a town that seems to forget-bowl everything. I'd should do that on Tuesday morning, before 8 AM and find out if there's anything going. If not I have no idea, still stuck in the position of no responsible adult. God help me I guess this is about my competency, but even being released to return as a homeless person, that's no help in being able to make contacts on the worldwide Autism problem and how to get it fixed. The 1st page of a letter to the Secy of Commerce, what would be on it to defer the part about the common practice of turning people into hydrocarbons, what could take up space from straight text or what would the straight text be. Without that chaplain's help I don't think I can reach anyone, + I don't know why not (except all the fear of decapitation.)

Dear George Washington University Hospital,

4/29/14

I've involuntarily been here since 4/24 and am in great danger of losing all the work I've done the past 9 years, copies of my letters to people and places all over Washington trying to get it straightened out that the global-system we're in was invented for people with "Paleo-American Autism psychopathy" with dependence on "extra" hallucinogens. Unless this is fixed we're really headed to TOTAL PLANETARY EXTINCTION. I know about this because of a joke played on me but my research turned up all this legitimate problem everywhere and I've got to have all this paperwork in order to keep letter-writing till responsible adult attention is working on this "Autism," where generally the label is put for people who actually have "Past-Lives Captivity Trauma."

GWU's co-founder Obadiah Brown was a generational-slave after Georgetown College's John Carroll (d.1815,) and they'd come from the slave-system in Europe that stretched out from back under Siberia-Tuva as the Paleo-Americans had found a mid-point base camp back in Biblical days. Then General Electric's old Jack Welch looks like Carroll and with his wife, Sozy, could be an easy way to straighten out a lot of the whole situation, used as examples for the generational-slavery and its history, where GEU and therefore then this hospital were founded by slaves for the Autism psychopathy, making GWU/H part of this ill-founded system of turning the planet "world-conquered" by the Autism, and then you have me sitting here begging you now to stop holding me here. There isn't much future for your set as slaves and you're the best and brightest type that should be leading the world up, but we're really going down to extinction and nobody but me is trying to get this fixed. Please let me go secure that my papers are okay. Kathleen Foshay (8/13/55)

I'd used their little lobby library for a few months. It was all this same strange stuff and my letters not acknowledged, except I wrote a note to ask a girl to cease terrorizing me and they told me I couldn't come back there anymore.

All of [redacted] came from this same "Bhent Altarpiece" group's then going into the petroleum, melted people, business, the same "Suzy's people" to Hermann Oberth to this homeless shelter and Jack Welch's Plastics work.

After [redacted] wasn't an escape from the shuttle-routine of 2nd + D Sts. to the library at 9th and 6 Sts, diagonally across from the St. Patrick's Church, I'd spent alot of the summer at the Library of Congress, and the branch library at Eastern Market, S.E. Offhand it seemed like people were LURE-collected while I was at the LOC alot, then infected with these "slug pneumonia" germs I call this bizarre "cold" illness, where I cough up green globs like pieces of slug-leeches. It seemed like there was alot of that in the SE, and that that's how people are being turned to muck, by "consumption" from this slug-illness.

There must be something really "Autist" that has a slave-command center that all of this against-nature horror gets ordered from. How can this be broken through to? I've always or since about 1998 figured it's under the Siberta-Mongolia border. There's an old country named Tova there.

(most dangerous,
probably connected to their ocean

Like a child the people with the Autism and their partners only don't want to get caught and retributed, would rather that the planet and everything on it just die off.

So I'm always trying to find assistance with this letter-writing to try to get the Autism recognized.

I've only found 1 book that's useful. Most of the material has what I call the "Past-Lives Captivity Trauma" confused for the Autism.

What I figure happened is that early walking people were entranced by the sight of the sun in the morning, as it looks like it's rising, but 1 group couldn't be deterred from trying to "catch" the sun before it "rises" from the ground and got ill forcing their way over Beringia, then were over in this New World with no other humans for no guessing how long, 40,000 - 250,000 years I'd guess.

It looks to me like they'd done their 1st home-takeover to dinosaur nests, moving in for warmth and the food brought to the hatchlings...

It's difficult to pull all my blind-side little pieces of evidence together but it clearly looks like that from the time of the Ghent Altarpiece where they turned the scallop-shell logo of the Pilgrimage to Santiago de Compostella later into the Shell Oil logo, worn by a character walking between the large character like Sozy Welch's or Dr. Safai's maybe-ancestor and the odd young boy with the Autism (psychopathy,) the character with the pilgrimage-logo scallop shell maybe even looking like Jack Welch's ancestor. One that looks like Oberth/Mitch Snyder's type is seen like peeking over the Artist-boy's head. From that time through to now they've been working on selling the black goop. I'm trying to explain that that's the sick idea of a mentally-ill child that's gone undetected, but the 20th century kept lots of records and files on everything and we can backtrack to see the Prehistory of the development of the Autism to get the situation untangled, to prevent TOTAL PLANETARY EXTINCTION.

Jack and Sozy Welch's respective ancestors, and an Artist, were depicted on the "Pilgrims" panel of the big "Ghent Altarpiece" said to be painted in 1432. It's also called "The Adoration of the Mystic Lamb."

In Sozy's "Judgment Call" novel is the 1st time I've seen it written that dead bodies turn to black goop, to petroleum.

It looks like "Sozy's people" were found and taken to the post-Trojan War, which was really an invasion, not a war, Asian mainland. The Artists already knew about leaving dead bodies to turn to liquid and liked that method and set about turning the "materiél" into explosives and then lamp oil-Kerosene then gasoline and airplane fuel, the airplanes invented for better hunting of people.

A group of the early "stunt pilots" came over here and "seeded" everywhere from Canada to Argentina for producing more airplane fuel from this disembodied ovaries "growing" of people problem that the Artist-Neanderthal partners had learned you could do that from dead bodies too, and one of the pilots was Roland Garros and I don't think he'd died in 1918-WWI but had had facial reconstruction that turned him into Hermann Oberth.
