Dear Food Stamps,

Last appt. I'd mentioned finding Mrs. "General Electric" Jack Welch's "allegorical 1992 novel, "Judgment Call," believing that it shows that her ancestors had made an error 600<sup>+</sup> years ago in mistaking this type

← of boy, an invader with Paleo-American Autism psychopathy and dependence on wrongful-narcotic hallucinogens, as being normal

and native to Asia and Europe and assisting them in their underdog-wars against all others complained against, when Mrs. Welch's ancestors were 1<sup>st</sup> taken captive, c. 700 A.D.

They invented the stock market and underground-system and this Revelation-Armageddon

"Play-show" script that's all over me, necessitating the food stamps while I try to get the government to work with instead of against me. I am trying to write

to the Secretary of Commerce now because I believe it's Ms. Penny Pritzker, whose Chicago family owns the Hyatt hotels that have flanked my shelter-to-library walk every day

and this could get straightened out instead of leaving us in TOTAL PLANETARY EXTINCTION,

but now I have a related bizarre new problem. For this Play-show way to make

Armageddon I'd been, in 1955, put into a nuclear family with a wrongful-narcotic psychopath at its head. I left his house in 1973 but it looks like he was always underground-trading

sperm donations for the wrongful-hallucinogens and now there are like thousands of

his "real" offspring all over, like an Armageddon army who all despise and have nothing in common with my ways of thinking - even a priest at St. Mary's on 5th and 6th!

No one is interested in the whole Earth's extinction and this bizarre problem of mine is seen as only being amusing because this army is all "food chain donations,"

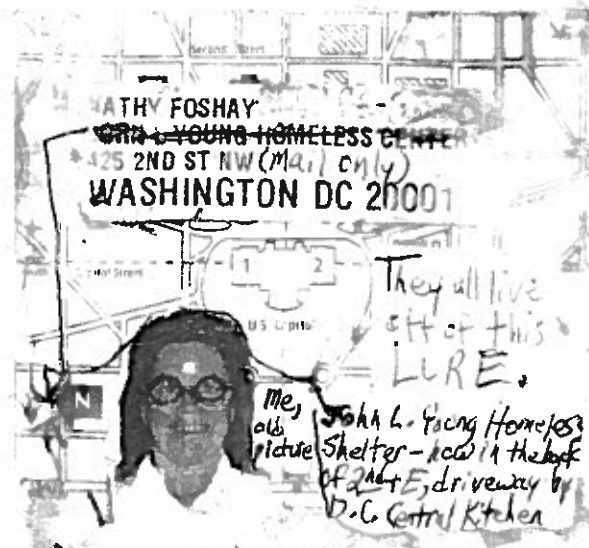

and there's nobody to take any of this responsibly. I hope you'll continue the food stamps.

Dear Food Stamps,

My wrongful-next-of-kin was always a secret-life mobster is how this Armageddon-making LURE off of me has been being gotten away with, figure #6 from the 1969 book on the 1962 "French Connection" narcotics bust. Back then this ploy must have had CIA and DOJ involvement, the best really a ritual to hide LSD behind heroin. I was set up to play with these suitcases and know there were slaves under

that area as how the "magic" tricks really work. I've been trying to get witness protection all these years and still haven't found anyone to even speak with me. The heroin is probably in black bags to symbolize human meat, this glow symbolizing a decapitation for then the LSD. The story that it's made from ergot mold was falling apart so this "French Connection" ritual was for covering-up the business, which seems to be everywhere today. Mr. Foshay has anger-fits is the Armageddon-making gimmick but I've had to write and ask about this. Please continue me.

Dear Food Stamps, ESA,

The recertification workers haven't been accepting my update-papers on what I've been doing thanks to the food stamps and I've been remiss in mailing them to your office the past year. This past appointment he accepted it but I already figured I'd have to mail this to you, and I shouldn't be alone with the whole end of the Earth anyway.

I've been trying to explain all along that I'm used wrongfully as an "Armageddon-making LURE" and now I've finally found verifiable evidence on that, a picture of my wrongful-~~next-of-kin~~ posed as though an officer in the 1962 real-life "French Connection" narcotics-trafficking seizure, that it looks like the whole incident was a ritual for hiding LSD-industry behind the conspicuous powder of heroin, and many other sins, that the prime-movers of the operation are also behind the whole book of Revelation, coming from an old cult in France, then my alleged-relative some big secret-life goon for them all these fifty years, with wrongfully-fertilized offspring of his just everywhere today, those basement-sneaks fertilizing misbegotten ovaries for raising this huge sneaky army that's in "security" fields of all kinds today and all over me, dozens and hundreds and thousands of Mr-Foshay's illegally-grown descendants getting the homeless and other people to do this "ioke" exhibition of me)
