From: Kathleen J. Foshay
425 2nd St, NW,
John L. Young shelter
Case No: 88484401

Food Stamp Recertification worker,

Sept. 2014 I submitted evidence that my alleged-parent turns out to have always been a "Murder Inc." LSD-mogul, obviously shadow-working behind the scenes to bring all this LURE cannibalism and pornography onto my life for his own purposes, which coincide with the Revelation-Armageddon threats and are bringing us to TOTAL PLANETARY EXTINCTION unless somebody assists me out of this owned-chattel situation, where I should be on a Witness-Protection program instead.

I can't communicate well enough with Mr. Foshay as he has always kept his real life secret and his hundreds and thousands of real offspring seem congregated largely under the 425 2nd St, NW homeless shelter building to prevent me from being able to reach anyone and anyone from reaching to assist me.

Thereby I wasn't able to get the DMV-identification card and cash the \$100.00 postal money order Mr. Foshay sent me in December, am flat-broke and dying out here for no real reason and without any useful contacts.

I thought you might be able to call or jot a note to the Gold Spot II office at 712 H St, NE,
(202) 544-0303.

Any help you could give me in this would be appreciated.

Also last week I found a picture of the lady-progenitor, the likely real mother of Mr. Foshay and maybe countless others, Rose Blumkin, b. Minsk 1893 - d. Omaha 1988, and they are very closely connected to the John L. Young type, the shelter is named after.

(Mrs. U. Blom)
refused this.

After the telephone # changed text to:
