

11/11/17

Dear Food Stamps,

The 4/8/14 note was before I found out that I was (am) also, have always been, in an Armageddon-rigged fraudulent-home fraud-relatives situation that I've since August 2014 writing letters to everyone I can about, trying to get this Armageddon-situation straightened out because this "global-system" really is going to break the planet, really.

I use the food stamps to have the energy for going to libraries for evidence and trying to find assistance for me to get out from under this Armageddon-making LURE and it's of all necessity for me to be able to continue trying to reach someone useful for getting the whole human race and planet out from under this old, old Armageddon Plan. The Bronx Zoo-area elementary school I went to and fraud-family "copies" are all over this town (unwittingly?) helping with this Armageddon-scam against my efforts and that's likely how my mail has been being stolen so that now the food stamps is a big extra emergency for me and gimmick for the LURE-criminals, as this is largely an underworld-mob type of a system that's been made, but made by generational-slave prisoners so that it's difficult to explain easily. PLEASE ACCEPT MY RE-CERTIFICATION. Kathy Foshy

I've filled this out before and can't guess if it's interpreted as applying for LURE-participant position, which is the opposite of what I've been trying to do - only honest embolism!
