to try to find out  
call what I'm attempting to do

I was able to get a blog website  
set up.

It's free so you can only  
find it with the long URL of:

Univ. Res. Coe Kathy Fos hay  
Word Press Com. Word Press. Com

you can also reach it through  
Facebook and Twitter.

I've lately been trying to

I found this business card on the floor of the hospital room 2/2/16 right after a visit from a lady who said she was from APS but wouldn't tell me her name or let me write to her about my situation and there's been no response to these emails from anyone.

Happy-but-belated

Mandi and Mr. Foshey! I'm  
trying to figure where  
Mr. (Grandpa) Gibbas had gone to  
church; maybe the one near

4/5/16, Tues, going on 11 AM I guess. This welfare-office is the "Jew directors" favorite place, and it's full of the fraud-parent's ejaculation-descendants, is always a big "power" over me non-existent-approvable "show," with ritual-gown people doing the spooky little hallucigen-enabled tricks, my whole I day a week out and thereby this letter requesting protection is toileted away from me, that they had 400 \$'s ahead of me and that's just mostly only papers sent-up, and a big scene at the security gate and one in the elevator and then the Stormille performing like a big shot -- they usually had a Stormille in an electric wheelchair conspicuously at the area when your # finally gets called and today they had all the seats available to me after the Stormille ordered me to go sit down. The Stormilles generally have electric wheelchairs they scoot around in, -- the other girl that I thought might also be a Stormille looks possibly instead to be from the "type" that was the "fraud-parent of the fraud-parent," the head of that nuclear family, and I'd barely met him before he'd passed. They're the "type" like in the newspaper photograph-photo copy I'd sent from the Nov. 2014 Washington Post picture of 3 people waving at Marion Barry's funeral cortege, the type on the left is the 1 I'm talking about now, then the fraud-parent's type and then on the right the girl's smile scores me that she might be from purloined-over from me, "stupid crossed-eyed girl" would smile at a time like that. I never knew anything about Mayor Barry until Sept-Oct of 2014 and suddenly realized he was a "John Carroll d. 1815" generational-slave type and'd maybe come from Socrates, who'd had to stay with to damage-control the pyromaniacal Artist-boys, always trying to teach them.

While these existent-underground entities, entities, are making sure you're no threat to their relative-operatives they must get bored and offence happen to "play" for amusing themselves, and also they perpetrate big "invisibly-done" tricks too, that from attending some Activity-class here that provided an excuse for sticking underground-things onto me invisibly and my eyeglasses just happened to break along with various other inconveniences I'm only aware of because of my advanced age with this.

(→ the Stewart scandal problem → the Great Depression  
10/27/16, Thursday, I was trying to get to that the system seems to use scandals as excuses for punishment-destruction and there was some "Stewart scandal" in 1929 by the big Oil companies that's similar to the Watergate scandal, and all of this scandal to me is likely the biggest scandal of all time when all the sado-comedy is cleared away. Also the 9/11 attack (and the Abu Ghraib 2003-04 scandal) is connected into these "Armageddon Show" situation-horror I'm always going through. I don't have any funds for ~~fix~~ straightening out these papers better, and I cannot sit in these LURE-traps using my situation as "draw" gimmick like this, etc. These illustrations are important to all this but I don't have paper for explaining:

When I got hit by the car 11/19/15 I spent 11 weeks at Suburban Hospital Bethesda, then 30 days in a nursing "home" in Kensington and then 6 weeks at the Missionaries of Charity, where I realized that that "Mother" Teresa had actually been a scam, and now I'm trying to figure this decomposed people "petroleum" industry because it seems related to my fraudulent-family and its "French Connection" narcotics scam involvement, that petroleum-industry involvement had gone on nearby in decades earlier when the family had lived on the Bronx's Bathgate Avenue, but that history of the petroleum-industry also has whatever setting up had gone on in India, where that phony "Mother Teresa" had largely worked, and I'm seeing that I'm unable to look into both that and look up for what I think had been going on around Bathgate Avenue, I can't try to read about both areas, and yet I've got people from both areas' sets ups like crawling all over me and especially hyped-up for this Halloween part of the year, while absolutely anyone anywhere could potentially easily relieve me of all or most of this torture-syndrome of always trying to find assistance. I've got a list of around 10 books I'd like to try to quick get info from tomorrow, but the (invisible) torture thrives off of whatever I try to do and sucks it from me.

**Extremities:** Extremities normal, atraumatic, no cyanosis or edema  
**Skin:** Skin color, texture, turgor normal, no rashes or lesions

4/5/16, Tues, 1<sup>30pm</sup> this "big" welfare-office power-show over little me now leaving me no time to try to use a library-computer unless I break the rules by going back there late which I'll have to do because this has always been a penitence life + death situation # I'm in + it's "excusable" by Jewish rules as I have been from New York suburbs those rules over me + there's no time to get there (2) painting illustration on 18 I get anything at all done. Plus I haven't been to the fund bed at all yet + don't know if I'll be able to even get the medical anything done as the sister at the place is a real nutcase - nutcase under my under the only just nasty toward + conspiracy against me this whole time like the worst person in the world copy + everything I'll now + it's too sick here for me like this anymore, here don't anything decent about this to me. It's all insanity - think based on them having the room + board # they'd stolen from the poor people in the 1<sup>st</sup> place. There's never been anything like this at the welfare office before.

These 2 Andreas Mantegna paintings in the Louvre are connected to this Revelation - Armageddon problem, with "Mister Teresa's" an<sup>(s)</sup> Charles Borromeo's and Benedict Sestini (astronomer - Artist - psych) and Lenny Bruce's and sabotage-psychiatrist Emil Kraepelin's type being there. I forgot what the word on this headband says. (He's got big breasts.) He's carrying "CRRC's" type as his buddy. All of them are running from a fire as the Artists were pyromaniacs terrorizing people since they saw meat being cooked to eat and insisted to do that too.

10/24/16, Mon. I'm learning and realizing things rapid-fire and have no one to talk to, all this horror just like a swamp. I'm covered with people "grown" from the ovaries, disembodied ova, of those phony Miste/Mother/Saint/Teresa's nun-group, missionaries group, all inconspicuously "incognito" around + making trouble for me, or used like puppet-pawns all these people around me are.

I'm going to but should not have to be doing this, go to that Library of Congress Smithsonian-place, tomorrow, as these places and people-puppets are all like machine-parts for the petroleum murder industry. It's all retardation. I don't know how to get myself first out of this swamp. I'm always in this same position with just variations on it. I can't explain it to strangers and the people I write to don't respond. This is how the global-system heirs are getting rich while making the planet die and it's all such obvious stuff but these system-people are self-mass-reproducing Artist-psychopaths and have everything covered. It's like I'm walking in a crowd of sewage today especially and this is the "Halloween" potty-party big happy end of a month, that's living off of torturing me.

I think that I'm going to be able to better-get assistance by the material to be reading tomorrow, and this Armageddon is bottomless for sadism, there's no satiating it, they have all these people to give role-play directions to all around me and they just suck up and whatever I get into the torture for working against little me, and on + on.

- Respiratory failure following trauma and surgery
- TBI (traumatic brain injury)
- Hypokalemia
- Hypophosphatemia
- MSSA (methicillin susceptible Staphylococcus aureus) infection
- Emphysema/COPD
- Bacteremia due to Staphylococcus aureus

Plan :

**Traumatic brain injury, s/p pedestrian struck w/ SDH/SAH; ??Possibly she jumped in front of the vehicle, possible suicide attempt (refer to earlier notes 12/2 and 12/3)**

- Completed 14 days of seizure ppx per NSU
- D/W Dr. Greenblum seroquel uptitrated
- Monitor behavior
- Needs likely to return to a group home setting, however her previous home will not take her back; SW working on medical shelter that will accept oxygen

**MSSA Bacteremia**

- Repeat BCLx negative
- CT chest in 3 weeks
- Dr. Kapoor, ID following

**Chronic schizophrenia w/ intermittent paranoid delusions**

- Uptitrate seroquel, now 100mg po nightly
- Reconsulted psych
- Behavior has not improved, continues to write copious papers on conspiracy, French Connection, Armageddon, NIH and the "detractors"
- Continue to monitor, but will likely need involuntary placement

*all untrue*

*horri-

All of this wants to be straightened out and I work on that by doing library-book research but it's all unpaid-labor while the system continuously runs this LURE and I should be witness-protected instead of treated like garbage like this. I was trying to get into the night-shelter that N Street Village runs and they turned me down and I panicked that after all this time Juniper Courts will be denied to me and went and applied to this nearby place that advertises that they take housing-vouchers and just got this reply enclosed on the next page.

It isn't my fault that the system uses me in this LURE but that precludes me from normal employment and isn't easily provable so I have to try to find evidence and I finally realized that "District of Columbia" has always really been sneakily "District of Colombia" the South American country because the people with the "Prehistoric-descended Autism-psychopathy" with hallucinogen-dependence had had a base-camp set up for themselves there, getting the Panama Canal built to make it easier to transport and rule from their main base up under Siber-Asia, Siberia-Asia, and I'm here all alone and totally ignored except for the toilet+garbage-level tricks done all over me as a gimmick-way they're getting their world-takeover done for themselves, like described in that "Book of Revelation" at the back of the Bible. They were developmentally disabled people high on hallucinogens and this to me is how their threats and promises are going to break the Earth "ultimately," leaving the universe bereft, eternity still there, God alone.

Since April 2014 the system is always playing this low-oxygen/  
difficulty breathing scam on me and I'd finally learned that the  
little finger-meters are reading your # of red blood cells in there.  
Those are affected by oxygen but probably are mostly affected by  
your diet, so that they play tricks with timing the readings to  
what kind of food and what kind of reading they want to find.

I guess, from this lot of recent experiences, that about  
50% of the doctors and 50% of the lawyers love this Autism  
I'm always trying to describe is bringing us to TOTAL PLANET  
EXTINCTION, and most of the other 50%'s are the Artist-system's  
slave-types for making this Artists-system that we live in now,  
(after my many years as their supreme sneak torture-victim.)

Then another new or updated finding is that perhaps most  
of this "#3 generational-slave or 'Babar'" type of people like at  
the bottom of the Sept. 2015 flyer on the next page here now,  
might actually largely come from the gene-donations of "JDR 2,"  
Mr. John D. Rockefeller, Junior, has been horrifyingly occurring to me.  
If you look closely at pictures of the "Cherry Blossom" WWII  
Japanese Kamikaze suicide-pilots many of them had Rockefeller Tr's  
face. Since he was so rich it's easy to jump to negative  
conclusions about whatever he was really up to with all  
that (oil-petroleum income) money, but like my torture-sets are  
nearly indescribable there's no guessing about all these bizarre  
situations, that he might have always been a well-meaning dope  
like me. Circa 1970 the fraud-parent had said "Junior" had been a real mean boss.

All I have is this 1 Juniper Courts application in and I'm afraid Wm. C. Smith Co. hasn't even actually received to start working on it yet so I'm hoping maybe you could get through to them better than I can or find me any easy place to get into, which brings up that I'd met you in November via that "CRRC" group and I don't want any form of contact with them!

Since the car accident I've been kept with my time so frittered away that I'm so disorganized and constrained by poverty and this and that that I've yet been unable to get together 2 big evidence-sets but that group just seems to me to be like a bunch of, in general, criminals mixed-in with illegally-reproduced individuals from this bizarre and narcotic-trafficking "fraud-family" that I've been in since born in 1955, (at NY Hospital.)

Please do not get in touch with that CRRC group regarding myself but if you or anyone you know of could work with me I might even be able to get some sort of a court settlement, which I can't do while in this DC General → UPO homeless van → Bethany Women's Center → MLK Library → N Street Village → UPO van → DC General washing machine pattern and this "Armageddon"-LURE is always trying to debilitate and then hospitalize me. Bad credit reports might come from this wrongful ambulance-calling and mail-losing and no current address syndrome-set, that everything has some logical explanation but I'm in this lousy lifetime-set up for the Armageddon + the "District of" Columbia mix-up keeps this place working against reality-logic.

I'm trying to get the evidence-bits up on a blogsite but I have to warn people that the system despises and uses me as a disappearance-LURE. (<http://www.UniverseRescueKathyFoshayWordPress.com>. WordPress.com.)

This is like the below  
Ghost Alterpiece's "twisted banner"  
visualized ribbon of word-letters  
(from the brain-eating by the newer  
captives, represented by this counselor. →  
The early-days "Eve" can't really  
describe the trauma in her brain

That "basket-case" serpent represents Eve's natural Adam before the  
invaders ravaged everywhere, because of the Autism and its

I'm thinking that Lenny Bruce is probably a good  
figurehead, but until I saw the 1953 picture I'd thought  
Eric (H) Mendelsohn was the best Artist-psychopath example,  
but the genes are so intertwined with the captives'

Plan/Recommendation:

Aim for extubation to allow for better neurologic exam. CT improved.

No family can be identified or located.

The plan was communicated with the ICU team.

Time:

I spent a total of 25 minutes examining this patient in the patient unit, discussing her findings with the patient and her family, checking the patient's laboratory results, reviewing the radiologic/imaging findings, and coordinating the care.

I'm working on trying to show the (exact) steps by which the system tricked this "District of Columbia" onto us and I'm really working to explain everything 24/7. I've been putting it onto a blogsite but it's really a mess because I can only get to a library-computer in the 10-15 minute "Express" sports: (<http://www.UniverseRescueKathyFoshayWordPressCom.WordPress.com>.

If I could get the time, -which I've been trying to do since last November but I got hit by a car and was in hospital + nursing care through April, this blogsite is actually all dangerous material because the system does and thinks everything the opposite of me, -I should be able to install a shiny "Donate!" button free from the Payful accounting company and be able to have an income, but being kept homeless and denied the N Street Village night-shelter keeps me in this continuously "Armageddon Show" -LURE torture-state, which is all unprovable, is that invisible warfare like in Hebrews 6:10, etc.

I have not got a normal credit-rating, like the Core Logic negative finding on me, because of this LURE-abuse, but there's also a major factor that the system used the "French Connection" fraud-parent's "water" as they say in DC, for mass-reproducing people, as well as reproductive matter from about 6 other members of that ordinary-seeming Bronx family not including whatever all they've done from me, to create as a faux-population cover-front out here, a false population of surface-appearing to be normal people but aren't, are like make-believe people, all over the place, that I'd like to safely get away to indoors from having to see all the time!

10/22/16, Sat, 11AM-ish - The tortures of this "Armageddon Show" off of me are nearly indescribable and it takes so long to establish some of the basics and there's no continuity so that I can never make any progress. I should be able to be in a shelter for battered women but this is all unprovable underground "magic," right now doing this horrifying hideous "building noise" that's done whenever I come to this particular branch library (at Rhode Island Ave. + 7th St. NE), trying to get to to check my email because of all the base-problems at the 9th + 6 Sts, NE, main library. Last night I found an example of the flyer I'd been making when this run of hospitalizations started on me, both in March 2014, and I'll put it on the next page. First they had an ambulance called on the excuse that a "plant" saw a bedbug on my pajama-back while I was brushing my teeth. There was some near-dead little bug there but if it was on me I'd only been sleeping there virtually every night since 2005 so the bug would have come from the place so why force me into an ambulance over a near-dead bug that somehow or another had only come from the place anyhow, and there was all of this same type of this phony "magic" playing games all over me the same as now and the girl who'd reported me might possibly have even dropped it onto my back. There are still 2 people connected to her around me now, come to think of it. This is really difficult for uninterested individuals to read.

So far I've got that slave-type Lord Curzon had worked in India till nearly 1910 and had likely had dealings with the Royal Dutch Shell company that became somehow Bronx-involved, that hook-up there's paving the way for the "Mother Teresa" and then I've got this all over me. In fact there's some "overlap" between the "Mother Teresa's group" and the Geo. Stepanopoulos types that is all over this Monday morning, and then next Monday morning is Halloween, and I "wrack" my brains for how to find anyone that'd be allowed to work with me, but everyone seems to be "magic" petroleum-machine parts. There is nothing complicated to this but I'm the "stupid crossed-eyed girl" part of this Armageddon-making machinery and I can't see to figure my way out of this torture-swamp. My eyeglasses broke from all this.

- WWII = Japanese torturers

Korean War

"conflict" of Vietnam

- E-Indians

that my eyeglasses broke because I'm stuck using this "day shelter" for women who are homeless and I'd started attending one of their (required) Activities that's led by some E-Indian that looks like some dissemination - from one of the politicians connected to that Stepanopoulos, that there's no point to mentioning the ~~even~~ scarier one's name, but because I went to the class I got a Hindu witchguard under me too.

## STATEMENT OF PHYSICIAN SERVICES

Alexander VI issued a papal bull statement in 1492 called I think the Line of Demarcation, saying how Spain and Portugal were going to divide the New World area between themselves. That was amended a little later by the Treaty of Tordesillas. They said that wherever was already living in the discovered area was okay to be where they were.

This really requires to be looked into and I think it's a lot of what is going on, where those people are still just going about their talking-over business and is why perhaps I haven't been outright murdered so far, that those are just biding their time and squeezing "the others" or people native to here out of their lives.

About 30 years before Alexander VI I believe that type had stolen the Vatican, set themselves up there by invading and taking it for themselves. But around 30 years after the New World discovery they learned through Magellan that we're on a round, ball-like and not a flat planet, and they destroyed a lot of their paperwork then.

Dear Dr. Bao,

Thank you for giving me your address.

I hope you saw the little ~~envelope~~ packet of

I have the worst situation in the world;  
it's simple but unnecessarily (or) complicated

Back in Tuva they won't admit to any errors, back under the Tuva area, I mean. Requests to work on any repairs have to go through the System's chain of command and they deny everything except what they want, have the whole planet prisoner this way. That "E Pluribus Unum" on the back of our dollar and the coins, From Many to One or One Out of Many is them, the One Brain, the One God, and this system is how they've been steady getting rid of all the other males. Toward that end I got birthed into a family with probably the biggest moron the generational-slaves could groom for the treason of helping the system.

My only speck of evidence isn't provable, it looks as though I'm completely incorrect and libelous and I have nobody on earth that is allowed to help me with anything, so it just appears that I'm wrong. **IMPRESSION: Multifocal intracranial hemorrhage including a left subdural hemorrhage, small right subdural hemorrhage adjacent to the anterior falx, subarachnoid hemorrhage and small bifrontal parenchymal hemorrhages. Scalp swelling along the vertex.** **PROCEDURE: Face CT.** **TECHNIQUE: Axial noncontrast CT imaging which forms the basis for coronal and sagittal reformats.** **FINDINGS: There is some motion on the study. There is suspicion of a nondisplaced right nasal bone fracture. This appearance could be produced by patient motion. There does appear to be nasal soft tissue swelling greater on the right side. There also appears to be soft tissue air within the anterior soft tissues of the nose centrally. The remainder of the study demonstrates no definite fracture. The globes and intra-and extraconal contents are symmetric. The paranasal sinuses are essentially clear. There is a concha bullosa within each middle turbinate.** **IMPRESSION: Study limited by patient motion. Possible nondisplaced fracture of the right nasal bone. Evidence of nasal soft tissue swelling with associated soft tissue air suggesting a component of laceration.** **PROCEDURE: Cervical spine CT.** **TECHNIQUE: Helical CT scanning which forms the basis for coronal and sagittal reformatted images.** **FINDINGS: The study is limited due to patient motion. Vertebral body heights appear maintained. No acute fracture is detected. There is incomplete bony union along the anterior and posterior arch of C1 which appears developmental. There appears to be slight retrolisthesis of C4 over C5 there are severe disc space loss at this level with prominent degenerative endplate changes. The prevertebral soft tissues are within normal limits.** **IMPRESSION: Limited study due to patient motion. No acute fracture detected. Slight retrolisthesis at C4-5. Clinical clearance of the cervical spine is recommended.** **PROCEDURE: Chest, abdomen and pelvis CT with contrast.** **TECHNIQUE: Helical scanning was performed during uneventful infusion of 140 cc Omnipaque 300.** **FINDINGS: There are emphysematous changes within the lungs most marked in the upper lobes. There is reticular coarsening concentrated within the mid to lower lungs. There is a broad opacity along the minor fissure which measures 13 Hounsfield units in density. There is a prominent reticular coarsening adjacent to this density extending to the lung periphery extending more anteriorly within the lung at this level. There are no dependent pleural fluid collections. No pneumothorax. No pericardial effusion. No mediastinal hematoma. There are multiple rounded low-density lesions within the liver. There is a 2.4 cm lesion in the left lobe measuring 10 Hounsfield units in density compatible with a cyst. There is a 1.9 cm severe lesion at the lateral aspect of the right lobe measuring 2 Hounsfield units in density compatible with a cyst. There are multiple smaller hepatic lesions having low density, likely additional cysts. Normal appearance of the spleen, pancreas, gallbladder, adrenal glands and right kidney. There is a left renal cortical cyst. There is mural thickening and hyperenhancement involving the duodenum, jejunum and proximal to mid ileal loops. No abnormal bowel distention. No free fluid or free air. No acute displaced fractures are seen.** **IMPRESSION: 1. Mural thickening and hyperenhancement involving small bowel concerning for shock bowel. 2. Emphysema with pulmonary fibrosis. 3. Broad low-density opacity along the minor fissure. The differential would include a low-density mass and fluid along the fissure. No fluid is seen more dependently within the chest. 4. Multiple hepatic cysts.** **PROCEDURE: Recon thoracic spine CT.** **TECHNIQUE: The axial source data was reconstructed which forms the basis for coronal and sagittal reformats.** **FINDINGS: Vertebral body heights and alignment are maintained without acute fracture seen.** **IMPRESSION: No acute osseous abnormality is seen.** **PROCEDURE: Recon lumbar spine CT.** **TECHNIQUE: The axial source data was reconstructed which forms the basis for coronal and sagittal reformats.** **FINDINGS: Vertebral body heights and alignment are maintained without acute fracture seen.** **IMPRESSION: No acute osseous abnormality is seen.** **PROCEDURE: CT angiogram of the head with IV contrast.** **HISTORY: Trauma. Intracranial hemorrhage.** **TECHNIQUE: Axial imaging was initially performed through the head without contrast. Postcontrast imaging performed after the administration of 140 cc of Omnipaque 300 intravenously which was given for today's CT of the chest abdomen and pelvis. Three-dimensional MIP reconstructions were performed.** **FINDINGS: The internal carotid arteries are patent bilaterally as they course through the skull base to the circle of Willis. There is flow seen within the anterior, middle and posterior cerebral arteries bilaterally as well as the basilar artery. There is flow in both vertebral arteries. No vascular malformation or aneurysm is identified. No significant occlusive changes are**

## Housing Choice Voucher Program

U.S. Department of Housing  
and Urban Development  
Office of Public and Indian Housing

OMB No. 2577-0163  
(exp. 9/30/2012)

Public Reporting Burden for this collection of information is estimated to average 0.05 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number. Assurances of confidentiality are not provided under this collection. This collection of information is authorized under Section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f). The information is used to authorize a family to look for an eligible unit and specifies the size of the unit. The information also sets forth the family's obligations under the Housing Choice Voucher Program.

**Privacy Act Statement.** The Department of Housing and Urban Development (HUD) is authorized to collect the information required on this form by Section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f). Collection of family members' names is mandatory. The information is used to authorize a family to look for an eligible unit and specifies the size of the unit. The information also sets forth the family's obligations under the Housing Choice Voucher Program. HUD may disclose this information to Federal, State and local agencies when relevant to civil, criminal, or regulatory investigations and prosecutions. It will not be otherwise disclosed or released outside of HUD, except as permitted or required by law. Failure to provide any of the information may result in delay or rejection of family voucher issuance.

Please read entire document before completing form Fill in all blanks below. Type or print clearly.		Voucher Number VA100055

**1. Housing Choice Voucher Program**

A. The public housing agency (PHA) has determined that the above named family (item 5) is eligible to participate in the housing choice voucher program. Under this program, the family chooses a decent, safe and sanitary unit to live in. If the owner agrees to lease the unit to the family under the housing choice voucher program, and if the PHA approves the unit, the PHA will enter into a housing assistance payments (HAP) contract with the owner to make monthly payments to the owner to help the family pay the rent.

A. The PHA determines the amount of the monthly housing assistance payment to be paid to the owner. Generally, the monthly housing assistance payment by the PHA is the difference between the applicable payment standard and 30 percent of monthly adjusted family income. In determining the maximum initial housing assistance payment for the family, the PHA will use the payment standard in effect on the date the tenancy is approved by the PHA. The family may choose to rent a unit for more than the payment standard, but this choice does not change the amount of the PHA's assistance payment. The actual amount of the PHA's assistance payment will be determined using the gross rent for the unit selected by the family.

**1. Voucher**

A. When issuing this voucher the PHA expects that if the family finds an approvable unit, the PHA will have the money available to enter into a HAP contract with the owner. However, the PHA is under no obligation to the family, to any owner, or to any other person, to approve a tenancy. The PHA does not have any liability to any party by the issuance of this voucher.

A. The voucher does not give the family any right to participate in the PHA's housing choice voucher program. The family becomes a participant in the PHA's housing choice voucher program when the HAP contract between the PHA and the owner takes effect.

B. During the initial or any extended term of this voucher, the PHA may require the family to report progress in leasing a unit at such intervals and times as determined by the PHA.

Dear Ms. Jacobs, Biofeedback,

I can't get to the activity today but have a belief/thesis that in some biofeedback-related way the waves of pain from the early anthropophagy-based system caused the Creators to halt

list

evolution of the solar system, causing Mars, Venus, and the other planets to die-off instead of also growing biologically, that space is like a crime-scene, but I'm alone in realizing/recognizing that. Maybe that 1970s-80s book "The Secret Life of Plants" was thinking in that similar direction, that pain has palpable effects. I couldn't find any books on Biofeedback at the library so far. Do you know of any research-resources that I could find toward trying to work-up this thesis for presentation that you could let me know about? I'll try to get to the biofeedback activity next week. Also my email is KellyFoshey2@gmail.com.

Sincerely, Kelly Foshey

This is not to recommend N Street Village or Bethany's, I only go there because I'm the most-tortured person that has ever lived and there isn't anywhere else in this Washington DC that I have been able to find because of all this "invisible-warfare" torture that I've long been under. Primarily, the system carries out its Book of Revelation & Armageddon threats off of this sneak-torture of me.

After our interview last Thursday I was able to get an appointment toward voucher-renting that apartment I like and then I've been busy getting zero-income papers notarized for them and then yesterday I had a quick interview and job-start for distributing flyers for the CTI, Career Technical Institute, on Vermont and L Street near here but I haven't been able to get the little paperwork for you toward more fully explaining my whole situation, and with all this sudden running around I'm worried about getting Bethany's activities for this week accomplished. That fire during our interview might be connected to that the activities keep getting cancelled and I'm worried I'll be turned down for LPNS so I'm trying to get this note to you to delay a vote against me because I'm so busy trying to get the flyer-distributing day for at least this first week and the rental-paperwork over to the same William C. Smith R.E. company that you coincidentally have here so that I don't lose the voucher and the LPNS spot and the employment, please! By next Tuesday I should be able to get the little resumé to you - Kately Foshey

<p>able to get a copy of my little resume for you, the point being that my life is so curse-sabotaged that I've never had a good job, just little, menial ones, and to give you the URL to my (little) blog/website, but that had an accident yesterday and I have to go try to get it fixed tomorrow, Tuesday. The little flyer-distributors job down the street said I got zero responses from my 3 hours of work so I can pick up my "last" check on Wednesday afternoon, which would then give me a little photocopy money for folders this week.</p>	<p>I'm only trying to get into a night-shelter and figuratively 'all torn up' during this unexpectedly long process) and then I'm just scared to hear that I'm being turned down and that the MCHA housing-voucher will similar to like chimerae, you and them, and the flyer-job and near my blog. He is also in danger. My health is in terrible shape from all this homelessness and I'm always unable to find any positive sort of assistance in any real way.</p>	<p>assist for me.</p>

July 8, 2016

Dear Mailroom,

Please help get my mail to me, I'm expecting a Lifeline cell phone and an envelope from PNC Bank both to have arrived by today but on Wednesday July 6 I received an envelope postmarked June 22, - 2 weeks to get to me from 20018 in the NE, but I'd mailed a postcard to myself here earlier and it had only taken the normal 2-3 days to reach me, so there is obviously some sort of mail-tampering going on and I really require your assistance to help keep the normal world running. I don't have paper-money for explaining it right now but it seems "District of Columbia" was really about drug\*-trafficking from the country Colombia and I'm alone in trying to get this explained and straightened out, really. Please don't work against me.

Sincerely, Kathy Fosley

7/9/16, Sat, 9:05 AM, Bethany's, that girl that looks like could be an offspring-descendant of my grand-uncle from Syracuse, NY just walked out of the church in like all-shiny night club gear + was like shocked at the blatant sight as this goes on + then blurted, "You must be selling drugs, (toke crossed that way keeps + she got nasty + said to call the police + they'll take me away in a street-jacket + as she walked into the doorway I started "parasite!" across the little flowerbed, it is obvious now that she's here for doing the "fly-catcher" problem I've got."
