

12/4/15, Friday pm
to try to find out
call what I'm attempting to do
I was able to get a blog website
set up.

It's free so you can only
find it with the long URL of:

Univ. Res. Ctr. Kathy Foskey
Word Press Com. Word Press Comm

you can also reach it through
Facebook and Twitter.

I've lately been trying to
get hold of Astro names
at the Cherry Chase DC Carnegie Inst.
Am. Univ. + Georgetown's observatory

~~Handwritten scribbles~~
- Non-Select keys

12/4 or 12/3/15, Friday, Suburban
Lat entity I call making us either
11/18/15 or 11/19/15

I guess I thought it is just to
inform about my quest for
Astronomers etc. So what day
was that?

All I can do is sit here & fantasize
if one from SFSD → Comag's here
might actually have about this
"accident" + can't be to really resolve.

It's Sun the 6th of Dec 9:30 AM

+ for the ~~1st~~ time in my life I'm
wondering when Mr. Fe was when
JFK was ~~assassinated~~ + then really
how much such a thing would be JFK Jr
-- that that was no ~~coincidence~~ killing
RFR & the same day - ~~the same~~

I found this business card on the floor of the hospital room 2/2/16 right after a visit from a lady who said she was from ABS but wouldn't tell me her name or let me write to her about my situation and there's been no response to these emails from anyone.

Happy-but-belated
birthday greetings + wishes to
Mandi and Mr. Fashay. I'm
trying to figure where
Mr. (Grandpa) Gibbas had gone to
church; maybe the one near
Evander H.S. Haven't heard
from anyone, hope
everything is okay.

PROCEDURE NOTE

A FAST exam and limited real-time 2-D transthoracic echocardiogram were performed under my direction and supervision to rule out intra-abdominal and intra-thoracic injury in this blunt trauma patient with chest and abdominal wall contusions.

Starting in the chest, there was no free fluid seen in the pericardium and no evidence of pneumothorax or hemothorax bilaterally.

Plan/Recommendation:

Aim for extubation to allow for better neurologic exam. CT improved.

No family can be identified or located.

The plan was communicated with the ICU team.

Time:

I spent a total of 25 minutes examining this patient in the patient unit, discussing her findings with the patient and her family, checking the patient's laboratory results, reviewing the radiologic/imaging findings, and coordinating the care.

1. **Housing Choice Voucher Program**

A. The public housing agency (PHA) has determined that the above named family (item 5) is eligible to participate in the housing choice voucher program. Under this program, the family chooses a decent, safe and sanitary unit to live in. If the owner agrees to lease the unit to the family under the housing choice voucher program, and if the PHA approves the unit, the PHA will enter into a housing assistance payments (HAP) contract with the owner to make monthly payments to the owner to help the family pay the rent.

A. The PHA determines the amount of the monthly housing assistance payment to be paid to the owner. Generally, the monthly housing assistance payment by the PHA is the difference between the applicable payment standard and 30 percent of monthly adjusted family income. In determining the maximum initial housing assistance payment for the family, the PHA will use the payment standard in effect on the date the tenancy is approved by the PHA. The family may choose to rent a unit for more than the payment standard, but this choice does not change the amount of the PHA's assistance payment. The actual amount of the PHA's assistance payment will be determined using the gross rent for the unit selected by the family.

tenancy. The PHA does not have any liability to any party by the issuance of this voucher.

A. The voucher does not give the family any right to participate in the PHA's housing choice voucher program. The family becomes a participant in the PHA's housing choice voucher program when the HAP contract between the PHA and the owner takes effect.

B. During the initial or any extended term of this voucher, the PHA may require the family to report progress in leasing a unit at such intervals and times as determined by the PHA.

1. **Voucher**

A. When issuing this voucher the PHA expects that if the family finds an approvable unit, the PHA will have the money available to enter into a HAP contract with the owner. However, the PHA is under no obligation to the family, to any owner, or to any other person, to approve a

Welcome Session

Welcome to N Street Village. We are here to provide support as you become acquainted with our programs and services. Staff, senior peers, volunteers, and fellow members of the community are here to answer your questions. Today we will give an overview of the N Street Village community and conduct a short tour of Bethany Women's Center and the Wellness Center.

✓ Eden House = ?

If you are interested in being a resident of a particular program, please enter your name onto our list before you leave today. If you are not sure today, you can speak with Ms. Evelyn Green or Bethany staff when you are ready to enter your name on the housing list. Based on your interest in a particular program your information will be shared with the appropriate team. When there is an available space on the waiting list of the program you chose, someone from that team will contact you to set up an appointment.

Dear Ms. Jacobs, Biofeedback,

I can't get to the activity today
but have a belief/thesis that in
some biofeedback-related way
the waves of pain from the
early anthropophagy-based system
caused the Creators to halt

list

evolution of the solar system, causing Mars, Venus,
and the other planets to die-off instead of also
growing biologically, that space is like a crime-
scene, but I'm alone in realizing/recognizing that.
Maybe that 1970s-80s book "The Secret Life of Plants"
was thinking in that similar direction, that pain
has palpable effects. I couldn't find any books on
Biofeedback at the library so far. Do you know
of any research-resources that I could find
toward trying to work-up this thesis for
presentation that you could let me know about?
I'll try to get to the biofeedback activity next
week. Also my email is KellyFoshey2@gmail.com.

Sincerely, Kelly Foshey

This is not to recommend N Street Village or Bethany's, I only go there because I'm the most-tortured person that has ever lived and there isn't anywhere else in this Washington DC that I have been able to find because of all this "invisible-warfare" torture that I've long been under. Primarily, the system carries out its Book of Revelation & Armageddon threats off of this sneak-torture of me.

Dear Madison,

list
↓

After our interview last Thursday I was able to get an appointment toward voucher-renting that apartment I like and then I've been busy getting zero-income papers notarized for them and then yesterday I had a quick interview and job-start for distributing flyers for the CTI, Career Technical Institute, on Vermont and L Street near here but I haven't been able to get the little paperwork for you toward more fully explaining my whole situation, and with all this sudden running around I'm worried about getting Bethany's 5 activities for this week accomplished. That fire during our interview might be connected to that the activities keep getting cancelled and I'm worried I'll be turned down for LPNS so I'm trying to get this note to you to delay a vote against me because I'm so busy trying to get the flyer-distributing okay for at least this first week and the rental-paperwork over to the same William C. Smith R.E. company that you coincidentally have here so that I don't lose the voucher and the LPNS spot and the employment, please! By next Tuesday I should be able to get the little resumé to you - Kately Foshey

Dear Mailroom,

Please help get my mail to me, I'm expecting a Lifeline cell phone and an envelope from PNC bank both to have arrived by today but on Wednesday July 6 I received an envelope postmarked June 22, - 2 weeks to get to me from 20018 in the NE, but I'd mailed a postcard to myself here earlier and it had only taken the normal 2-3 days to reach me, so there is obviously some sort of mail-tampering going on and I really require your assistance to help keep the normal world running. I don't have paper-money for explaining it right now but it seems "District of Columbia" was really about drug*-trafficking from the country Colombia and I'm alone in trying to get this explained and straightened out, really. Please don't work against me.
